7th nigeria Pharma Manufacturers' EXPO

7th edition of NIGERIA PHARMA MANUFACTURERS' EXPO 2024 - the largest exhibition of Central & West Africa on COMPLETE pharma manufacturing was held during September 4 & 5, 2024 at Balmoral Convention Centre, Sheraton Hotel, Ikeja, Lagos, NIGERIA.

Jointly organized by Pharmaceutical Manufacturers Group of Manufacturers Association of Nigeria (PMG-MAN) and GPE EXPO PVT. LTD.

OBJECTIVE:

- To support the pharma manufacturing plants in Nigeria to get upgrade and well equipped on time to time basis.
- To create a platform for pharma machinery and equipment, raw and packaging materials, laboratory equipment, chemicals and reagents manufacturers to meet and engage with the local pharma manufacturers and other stakeholders.
- To encourage further development of local manufacturing and production of high quality, safe and affordable medicines.

The inaugural virtual speech graced by Dr. Tunji Alausa, Hon. Minister of State for Health and Social Welfare, Federal Republic of Nigeria and the inaugural ceremony was graced by Prof. Akin Abayomi, The Commissioner for Health Lagos State Nigeria.

The Keynote Speech was delivered by the Special Guests, amongst which are; Mr. Babajide Sanwolu, Governor of Lagos State, Prof. Mojisola Adeyeye - DG, NAFDAC, Mr. Oluwatosin Jolayemi Esq, Chairman, PMGMAN - CEO / Managing Director, Daily-Need Industries Ltd., Pharm. Patrick Ajah - MD / CEO, May & Baker (Nig) PLC and Chairman of the NPME 2024 - 7th Edition.

Other dignitaries that made policy statement are the representatives of the Federal Ministry of Industry Trade and Investment(FMITI), and the National Drug and Law Enforcement Agency (NDLEA).

THEME:

***40 years of advocacy:
Fostering partnership & innovation
to unlock the pharma manufacturing
value chain in Nigeria, Central & West Africa***

**PROF. AKIN ABAYOMI
COMMISSIONER FOR HEALTH
LAGOS STATE, NIGERIA**

THE EXHIBITION

The Exhibition - 7th NIGERIA PHARMA MANUFACTURERS' EXPO 2024 had remained highly resourceful for all the exhibiting companies to expand and strengthen the business network with the pharma manufacturing professionals and buyers.

87+ exhibiting companies showcased complete spectrum of Pharma Processing & Packaging Machineries, Analytical & Biotech Eqpts, Active Pharma Ingredients (API), Utilities (Clean room and Water Treatment & Purification Eqpts), Project Consultants and formulation to expand their export trade.

THE ATTENDEES

More than 1,250+ Trade Professionals had attended the Exhibition.

The Project Head / CEO / MD, Plant / Manufacturing Head of pharma manufacturing companies attended this Event. During their visit to the Exhibition, they had one-to-one meetings with all the Project Consultants and international suppliers. The Event - Exhibition and Pharma Conference were attended by the top pharma professionals, Drug Regulatory Officials from entire West Africa region

The state government has initiated process to establish the drug manufacturing agency. The aim of establishing the agency is to promote access to quality drugs and consumables in the state and across Nigeria. At the Expo themed “Fostering Partnership and Innovation to unlock the Pharma Manufacturing Value Chain in Nigeria, Central and West Africa”,

55 companies from China, India, France and Switzerland and 100 PMG-MAN members from Nigeria were the key exhibitors at the Nigeria Pharma Manufacturers' Expo 2024 at Lagos. The Lagos State Government is already writing a draft law on the drug management agency, it will be submitted to the cabinet and passed on to the Lagos Assembly.

Many states have done it. We are left behind because we have so many industrial platforms in Lagos and Ogun state, and most of these drugs are produced in our vicinity. This will enable Lagos not only to promote local manufacturing, but to also promote the idea of total quality assurance, including random testing alongside NAFDAC, and form a collaboration with the private sector.”

We urged local producers to attain global best practices, adding that medicine security and national safety sufficiency were critical to our survival as a country. We commended PMG-MAN for championing the move to boost the local production of drugs and its sufficiency in Nigeria.

“In so doing, we must ensure that we're not putting our citizens at risk because a substandard drug can result in severe morbidity, sickness or death,”

PROF. MOJISOLA ADEYEYE
DIRECTOR GENERAL
NAFDAC, NIGERIA

The nation's pharmaceutical sector is currently under construction to increase local production of drugs. Country had surpassed 30 per cent local drug production. Drug importation addiction would be reversed while local manufacturing would be intensified.

This is because the only way to guarantee drug security, quality and affordability for Nigerians is through local production. NAFDAC is very much alive to her responsibility and that is the drive and implementation we are working on to increase local manufacturing to 70 per cent and importation to 10 per cent."

Recently the World Health Organisation added Sulfadoxine / Pyrimethamine antimalarial drugs by Swiss Pharma Nigeria Limited to its list of pre-qualified medicines.

NAFDAC contributed technical support prior to WHO's site inspection and valuable insight into objective review of Corrective and Preventive Actions to make it a reality.

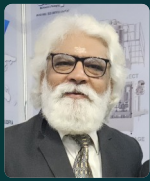

"We now have two products that are pre-qualified and this is just the beginning because we are going to have more products that are locally made in Nigeria pre-qualified. We must be proud of our own but without a strong regulatory agency, we cannot achieve this.

"Our goal is to increase local manufacturing to 70% while limiting importation to 10%. This shift will secure a more resilient and self-sufficient pharmaceutical sector."

We are exhibiting at the NIGERIA PHARMA MANUFACTURERS' EXPO Exhibition at NIGERIA since its launch in 2011. The Exhibition connects us mainly with the Nigeria pharma manufacturing industry. The acceptance of our products / services and the understanding of the buyers of this region are excellent. Nigeria pharma manufacturing industry has a huge potential provided with stable economy and easily available forex for buying internationally.

PIYUSH DAVE
DIRECTOR
GMP MACHINERIES & PACKAGING

FABTECH is exhibiting since 2011 edition – the launch edition of the Nigeria Pharma Manufacturers' Expo. it's a great opportunity to have such a platform to communicate with our business partners, regulators, and many other related industries. Usually, we are having a great experience in the Expo when discussing with our clients, the understanding is good generally. We do like the new venue as it's much better than before. Two days are good for the Expo. We prefer that we have this opportunity on a yearly basis. I will rate the expo as 4 stars out of 5.

The exhibition provided a robust platform for meaningful engagement within the pharma manufacturing industry in West Africa. It allows for direct interaction with key stakeholders, fostering new partnerships and collaborations.

We have experienced a positive reception of our products / services. The attendees were well-informed and engaged, which led to insightful conversations about our offerings. The expo served as an effective venue for enhancing our brand visibility and deepening relationships with existing and potential clients.

The pharma manufacturing industry in Nigeria is showing impressive growth and resilience. The advancements in technology, infrastructure, and regulatory frameworks are encouraging. We believe this market holds great potential for further expansion and innovation. Thank you again for this opportunity. We look forward to future engagements and continued collaboration.

ESTHER EKANEM
